

Mr Ajithkumar PC

(Former PTA President, Cochin Refineries School)

Message

It is heartening that our school has brought in new spirit into its process of SQAA .This has been attempted as a continuance of the CBSE's concerned to ensure that its processes are in tune with global changes in the education scenario.

Implementation of SQAA policies will help our children to develop their skills and improve the value system. It facilitates the creation of a learner-centered environment conducive to quality education and focuses on the overall analysis which includes institutional strength, weakness, opportunities and challenges.

An ideal education system is the one that enables the students overcome various hardships and adapt to changing circumstances. The present age demands a learning society that challenges the existing answers rather than find answers to conventional questions .Such campuses are inevitable to ensure radical positive changes .The decision of our school to execute the SQAA process is a most appreciable one as it will surely be a strong stimulant to the students curricular as well as co-curricular activities .Moreover the periodic assessments of the campus and the educational standards will help us realize our strength and weakness and progress accordingly .As far as CRS is concerned SQAA was not at all a Herculean task as it already had the privilege of systematic annual plan well defined infrastructure and excellent scholastic as well as co-scholastic activities to its credit.

On this occasion, I, on behalf of the school PTA wholeheartedly felicitate SQAA team members including the Principal, coordinators, teaching staff who are proceeding with the SQAA process.

My best wishes

Ajithkumar P C
Former President,
PTA
