GAGAN

The project is titled "PRITHVI HOUSE" at the top. The main theme is "ONLY ONE EARTH". The central illustration shows a waterfall cascading over rocks. To the right, there's a drawing of a sun and a building. Below the waterfall, there's a drawing of a hand holding a small plant. The project is decorated with various cutouts, including a globe, a tree, and a person. Handwritten notes are scattered throughout, discussing environmental issues like pollution, conservation, and the importance of Earth. One note says "EARTH PROVIDES EVERYTHING TO SATISFY EVERY MAN'S NEEDS BUT NOT EVERY MAN'S GREEDS". Another note says "ANYONE CAN SEE A BUT NOT FEEL IT". The project is framed by a border of green leaves and a string of colorful beads.
